

Glimpse #1: Adding Up the Numbers or Gradebook Aggregations

Match the Gradebook in Moodle to Your Syllabus

- A. Points earned divided by points possible show out of 100 = **Simple Weighted Mean of Grades** (default)
- B. Points earned divided by points possible show the number of points = **Natural**
- C. User manually assigns weights, regardless of the maximum grade point value = **Weighted Mean in Grades**
- D. Every item carries the same weight, regardless of the Maximum grade point value = **Mean of grades**

Which matches your syllabus?

<p>SIMPLE WEIGHTED MEAN OF GRADES</p> $\frac{\textit{Points Earned}}{\textit{Points Possible}} = 100.00$	<p>NATURAL</p> $\frac{\textit{Points Earned}}{\textit{Points Possible}} = \frac{\textit{Points Currently Earned}}{\textit{Points Possible}}$
<p>WEIGHTED MEAN OF GRADES</p> <p><i>Weights Assigned Manually</i></p>	<p>MEAN OF GRADES</p> <p><i>Average All Grades Together</i></p>

Gradebook Example: Overall Aggregation Simple Weighted Mean of Grades (default)

<p>Assignment #1 – 30 pts Assignment #2 – 65 pts Assignment #3 – 80 pts Quiz #1 – 85 pts Quiz #2 – 95 pts Final Exam – 100 pts Participation – 50 pts COURSE TOTAL = 100</p> <p style="text-align: center;"><i>Adds Points Earned, Divides by Points Possible, and Displays out of 100</i></p>	<p>Simple Weighted Mean of Grades</p>
--	--

Gradebook Example: Overall Aggregation Weighted Mean of Grades (manually assigning weights)

<p>Assignments – 35% of course total</p> <p>Quizzes – 15% of course total</p> <p>Final Exam – 45% of course total</p> <p>Participation – 5% of course total</p> <p>COURSE TOTAL = Weighted Average</p>	<p>Weighted Mean of Grades</p>
---	---------------------------------------

Gradebook Example: All Aggregations Utilized

<p>Assignments (3) – 25% of course total Assignment #1 – 30 pts Assignment #2 – 65 pts Assignment #3 – 80 pts</p> <p>Quizzes* – 25% of course total Quiz #1 – 85 pts Quiz #2 – 90 pts Quiz #3 – 90 pts</p> <p>Final Exam+ – 20% of course total Final Exam – 100 pts Final Exam Retake – 100 pts</p> <p>In-Class Presentation – 20% of course total Presentation (all parts) – 200 pts</p> <p>Attendance & Participation – 10% of course total Participation – 50 pts Attendance – 50 pts Extra Credit Panel – 5 pts</p> <p>COURSE TOTAL = Weighted Average</p> <p>*Lowest Quiz grade dropped +Highest Final Exam counted</p>	<p>Overall Gradebook Aggregation: Weighted Mean of Grades</p> <p>Category Aggregations: Assignments - <i>Simple Weighted Mean of Grades</i> Quizzes - <i>Mean of Grades</i> Final Exam - <i>Highest Grade</i> Attendance/Participation - <i>Natural</i></p>
